

**MOONLIGHT LANDING**

An EA-18G Growler arrives on the aircraft carrier USS George H.W. Bush off the coast of Virginia, with other Growlers and F/A-18 Super Hornets parked on deck nearby. As the Growler makes contact with the swaying deck, the aircraft's tailhook snags one of three arresting wires, bringing the flight to a stop. Photographer Tim Reinhart used a two-second exposure to capture the streaks and shadows.
